

Course Objective:

To develop an understanding of financial literacy. Financial literacy is a vital skill in adulthood, yet many high schools do not offer adequate courses on this subject. Students will learn essential financial skills, especially investing, and develop an understanding of how they can invest in the stock market.

Logistics:

Course will be run over google meet every Sunday evening from 4-5 pm EST from May 15th to June 19th

Course Outline:

- Day 1
 - Learn why financial literacy is important, and the basics of what they are able to invest in.
 - Also listen to a ted talk of Mellody Hobson about the importance of financial literacy
- Day 2
 - Learn about the stock market, and how it functions.
- Day 3
 - Learn about the stocks they can invest in.
- Day 4
 - Learn about ETFs, and how they differ from stocks. Examples of common ETFs will be discussed
- Day 5
 - Learn different investing methods, mainly lump sum investing and dollar cost averaging.
 - At the end of the lesson, develop an understanding of what investment method to use
- Day 6
 - Review an investment portfolio to analyze and ask questions
 - Play a review game covering all of the material of the course for a prize at the end
